

November 24, 2025: Letter to Lieutenant Governor Dan Patrick

Dan Patrick:

I am writing to inform you that I am a licensed attorney at law that filed numerous public information act requests in the eight largest counties of Texas to investigate the purported vote totals of the 2020 Presidential election.

During that time, I captured the heart of Donald Trump's campaign for President and his team began unmercifully spying on my home. At first, their team appeared to be helping me in my life or watching over my efforts, but their tone quickly turned into oppression and destruction of my personal property.

Since late 2021, I have been living under the malicious spying presence of an out of control team that identifies itself as Donald Trump and his followers.

Office of the Lieutenant Governor

I am writing to inform your office that the President, a convicted felon, is harming our home in a felonious way - every single day of the week for years now.

I have contacted the FBI, the Texas Rangers, the SAPD, and countless members of the Texas House, and US House of Representatives. I have also contacted the Secret Service and the Texas Governor on numerous occasions.

Apparently, the United States military, along with the Space-X Star-Shield program has created a large spying network of criminals to shield themselves from exposure and criminal liability by stalking their political opponents and 'marked enemies' using a team of criminals on the ground that are receiving guidance from criminals in the national security spy state.

I am writing to inform you that Donald Trump's team is expressing Nazi beliefs and seems to be out of control in carrying out a Nazi overthrow of the American and Christian way of life.

I will write again when I have more time. Until then, please be informed of the nature of the modern criminal conspiracy to overthrow the American government and Christian family's way of life, liberty, and the pursuit of happiness.

Kindest regards,

Chris Noel Carlin

We are being stalked by Donald Trump's team of co-conspirators
